

# TARGET

## PLC EMPLOYEE ASSISTANCE

When you need help in-store, it's just a click away! From the scan page just tap the help icon, which glows red after you've tapped it, and head to the nearest employee assistance post. After you've tapped the help icon, the plan view store map page appears showing your location and the location of the nearest assistance post. Just make the two meet on the screen and you're there! Help will arrive within 60 seconds of when you first tapped the icon.
