

TARGET

PLC SHOPPING LIST

Extend what you can do with items on your shopping list; swiping items on your list pulls up the mini options menu. From the mini menu you can indicate that items have been placed in your cart (check them off the list for those not using "My Cart"), locate the item in your "home" store, look up reviews and get info on the item via TARGET Live, or remove the item from your shopping list. Deleted items go to a deleted items page so you can retrieve them if the removal was done by mistake.
